How to use

Icons fall into 2 categories, they either indicate that the user can take an action or they draw the attention of the user to an area or message. Icons should only be used for the meanings indicated below, if they are used in other ways the meaning of the icon will be lost to the user.

If the icon is not universally known then it must have a description associated with the image.

When space/hierarchy permit icons used as buttons should have some kind of button design to indicate that the icon can be tapped to take an action.

Color

The Financial Institution can choose a link/icon color in the AP branding tool. That color should meet the WCAG contrast ratio for AA compliance with accessibility guidelines. Test color compliance at this site:

http://snook.ca/technical/colour_contrast/colour.html

If the Financial Institution did not select a link/icon color, then the icon must use one of the HEX values below to meet accessibility guidelines:

#333333, #666666, or #FFFFFF (if on a dark background).

SVG Icons

Download Icons

The icons shown below should be in the Financial Institution link/icon color. These icons are made with an SVG.

<div>Name: Accounts</div> <div>\$</div>	<div>Name: Add</div> <div>+</div>	<div>Name: AlertFill</div> <div>!</div>	<div>Name: AlertOutline</div> <div>!</div>	<div>Name: Back</div> <div><</div>	<div>Name: BillPay</div> <div></div>
<div>Name: Calendar</div> <div></div>	<div>Name: Call</div> <div></div>	<div>Name: CheckImage</div> <div></div>	<div>Name: CheckMark</div> <div>✓</div>	<div>Name: TransferMoney</div> <div>↔</div>	<div>Name: Computer</div> <div></div>
<div>Name: Delete</div> <div>✕</div>	<div>Name: Edit</div> <div></div>	<div>Name: Email</div> <div></div>	<div>Name: Forward</div> <div>></div>	<div>Name: Help</div> <div>?</div>	<div>Name: HelpOutline</div> <div>?</div>
<div>Name: Hide</div> <div></div>	<div>Name: Info</div> <div>i</div>	<div>Name: Notifications</div> <div></div>	<div>Name: PayPeople</div> <div>P</div>	<div>Name: Print</div> <div></div>	<div>Name: Recycle</div> <div></div>
<div>Name: Refresh</div> <div>↺</div>	<div>Name: Rename</div> <div>A+</div>	<div>Name: Repeat</div> <div>↺</div>	<div>Name: Rewards</div> <div>★</div>	<div>Name: Search</div> <div>🔍</div>	<div>Name: Security</div> <div>🔒</div>
<div>Name: Settings</div> <div>⚙</div>	<div>Name: Show</div> <div>↓</div>	<div>Name: StopPayment</div> <div></div>	<div>Name: Sort</div> <div>▼</div>	<div>Name: TextMobileAlerts</div> <div>💬</div>	<div>Name: TextMobileAlertsOutline</div> <div>💬</div>
<div>Name: Arrow</div> <div>▶</div>					

The icons shown below should not be modified to another color.

<div>Name: AlertError</div> <div>✖</div>	<div>Name: AlertWarning</div> <div>!</div>	<div>Name: TurboTax</div> <div>✓</div>	<div>Name: Scheduled</div> <div>🕒</div>	<div>Name: Success</div> <div>✓</div>	<div>Name: PageLoader</div> <div>⦿</div>
<div>Name: SmallLoader</div> <div>⦿</div>	<div>Name: Close</div> <div>✕</div>	<div>Name: Close</div> <div>✕</div>			

Yellow color always indicates a warning to pay attention.

Green always indicates success.

Red indicates error.

Icons Size

We have three sizes of icons, small, medium and large. However you can always set the SVG to be any size you want to work better with the design.

<div>Small</div> <div>\$</div>	<div>Default Inherit Size</div> <div>\$</div>	<div>Large</div> <div>\$</div>
16x16px (field level messages)	1 em (Most common use)	32x32px (Not common)

Accessibility

All images must have an alt attribute (even if the function of the image is purely decorative and alt=""). When an image has meaning to a sighted user, convey this with the alt attribute if possible. Avoid images that contain text; if they do, the alt value must contain the same string of text.
